

## What is Homeingle?

Homeingle is a social network that provides organizations (nonprofit, religious, community) with the online tools to connect with their members, community, and local businesses. Organizations and their members can create **needs** (items/services) for local businesses to respond to. Homeingle brings the foundation of communities closer to individuals, organizations, and businesses. With the current economic environment... every extra bit helps.

### How does Homeingle work?

We provide tools beyond the typical social network.

- » Organizations and members that join Homeingle can create **needs** (items/services) regarding their events and activities.
- » Businesses join Homeingle and create a custom profile. When local needs are created businesses are notified by email.
- » Businesses use Homeingle to communicate with the groups and individuals requesting items/services.
- » These businesses are also listed in a directory for groups and individuals to see and rate. Businesses that use Homeingle show support for their community and are rewarded with a positive image.

### How can my chamber benefit from Homeingle?

Homeingle provides tools for organizations to easily communicate their product and service needs to local businesses. The more organizations using Homeingle, the more business your chamber members can receive.

### How much does Homeingle cost?

Homeingle is **free** for individuals and organizations to join, organize groups, events, and volunteer opportunities. Local businesses are charged a small monthly fee of \$19.95 to respond to needs and be listed for local groups to see. Chambers of Commerce that partner with Homeingle can offer their members subscriptions for as low as \$4.95 a month. Your Chamber members can join independently with no cost to the Chamber. In return, your Chamber endorses Homeingle to its local organizations. This relationship provides additional value to your Chamber memberships while also increasing sales for your members.
